

## ISH2012 - Program-at-a-Glance (30<sup>th</sup> September - 4<sup>th</sup> October)

	7:00	9:00	10:30	11:00	1:00	2:00	4:00	Evening
<b>Sat</b>				<b>Sponsor Symposia</b>		<b>Sponsor Symposia</b>		
<b>Sun</b>				<b>Sponsor Symposia</b>		<b>Sponsor Symposia</b>		<b>Welcome Reception</b>
<b>Mon</b>	7:00	9:00	10:30	11:00	1:00	2:00	4:00-6:00	Evening
	<b>Workshop</b>	<p style="text-align: center;"><b><u>PLENARY</u></b></p> <p><i><b>Rick Lifton (UK)</b> Gene mutations linked to hypertension</i></p> <p><i><b>Murray Esler (Aust)</b> Sympathetic nervous system in hypertension</i></p>	<b>Morning tea</b>	<p style="text-align: center;"><b><u>SCIENTIFIC SESSIONS</u></b></p> <p>Bridging the gap in primary care Emerging vascular targets Global, indigenous and ethnic populations Cardiac Hypertrophy and remodelling Renal salt balance and hypertension</p>	<b>Lunch and Exhibition</b>	<p style="text-align: center;"><b><u>SCIENTIFIC SESSIONS</u></b></p> <p>ISH Young Investigator Award Renin-angiotensin system: Old dog-New tricks Treating the Elderly Immunity, inflammation and hypertension Debate: BP Targets in diabetes</p>	<b>Posters and Exhibition</b>	
<b>Tue</b>	7:00	9:00	10:30	11:00	1:00	2:00	4:00-6:00	Evening
	<b>Workshop</b>	<p><i><b>Peter Rothwell (UK)</b> Thoughts on Blood Pressure and Stroke</i></p> <p><i><b>Kelly Frazer (USA)</b> Gene deserts: characterisation of function</i></p>	<b>Morning tea</b>	<p>Absolute risk Large artery function Co-morbidity - renal fibrosis Obesity &amp; sympathetic nervous system Atrial fibrillation</p>	<b>Lunch and Exhibition</b>	<p>ASPH Young Investigator Award Lifestyle &amp; nutrition Sex-differences in hypertension Sleep apnoea Hypertension and stroke</p>	<b>Posters and Exhibition</b>	<b>Presidential reception</b>
<b>Wed</b>	7:00	9:00	10:30	11:00	1:00	2:00	4:00-5:30	Evening
	<b>Workshop</b>	<p><i><b>Dick de Zeeuw (NL)</b> On and off target effects of protective agents: unmet needs</i></p> <p><i><b>Toshiro Fujita (Japan)</b> The kidney and hypertension</i></p>	<b>Morning tea</b>	<p>BP measurement Parental and childhood influences on adult hypertension Resistant Hypertension Pathogenesis of hypertension Austin Doyle Award</p>	<b>Lunch and Exhibition</b>	<b>Posters and Exhibition</b>	<p style="text-align: center;"><i>ISH Presidential lecture and award ceremony</i></p>	<b>Gala Dinner</b>
<b>Thur</b>	7:00	9:00	10:30	11:00	1:00	2:00	4:00	Evening
	<b>Workshop</b>	<p><i><b>Eric Olson (USA)</b> Micro-RNAs and the fine tuning of cardiovascular health</i></p> <p><i><b>Tien Wong (Singapore)</b> The eye as a window to study the origin and manifestations of Hypertension</i></p>	<b>Morning tea</b>	<p>Optimal BP Cerebral blood flow and dementia Genetics of primary aldosteronism Hypertension and pregnancy Biomarkers of disease</p>	<b>Lunch and exhibition</b>	<p>Myocardial regeneration Hypertension &amp; the diabetic kidney Debate: A modicum of salt Late breaking New drug targets</p>		

## **'State-of-the-Art' Plenary**

**Professor Rick Lifton - USA**

*Gene mutations linked to hypertension*

**Professor Murray Esler – Australia**

*A short history of the sympathetic nervous system: From Thomas Willis to radiofrequency ablation of the renal sympathetic nerves in hypertension*

**Professor Peter Rothwell - United Kingdom**

*Thoughts on blood pressure and stroke*

**Professor Kelly Frazer - USA**

*Gene deserts: Characterisation of function*

## **Keynote Speakers**

Robert Carey

Bo Carlberg

Tom Coffman

Christian Delles

Peter Doherty – *HBPRCA Austin Doyle lecture*

Jeremy Duffield

Marianne Gelenijnse

Paul Glaziou

Joey Granger

John Hall

Stephen Harrap

Wendy Hoy

Alun Hughes

Yukata Imai

Xavier Jeunemaitre

Sadoysme Ito - *The APSH Trustees Lecture*

*Rod Jackson*

Iris Jaffe

Garry Jennings – *APSH Presidential Lecture*

Elisabeth Lambert

Richard Lee

**Professor Toshiro Fujita**

*The kidney and hypertension*

**Professor Dick De Zeeuw**

*On and off target effects of renal and CV protective agents and how they each contribute to outcome: Unmet needs*

**Professor Eric Olsen**

*Micro-RNAs and the fine tuning of cardiovascular health – HBPRCA RD Wright lecture*

**Professor Tien Wong – Singapore**

*The eye as a window to study the origin and manifestations of hypertension*

Gerald London

Guiseppe Mancia

Hitoshi Okamura

Julian Paton

Vera Regitz-Zagrose

Bert Sakmann

Kathryn Sandberg

Ernesto Schiffrin

Roland Schmeider

Karen Sliwa

Chris Sobey – *HBPRCA Colin Jonhston Lecture*

Rhian Touyz

Christophe Tzourio

Thomas Unger

Stephen Vatner

Jiguang Wang

David Webb

David Williams

William Young Jr

Maria Christina Zennaro
